Klein Transportation has made great changes in the last 55 years. Back in September of 1957, John Klein began providing school bus transportation to the Daniel Boone School District. Fast forward 55 years later, Klein Transportation is a growing corporation with many diversified services and vehicles to meet its customer needs.

There has been much change in the school bus operation, with increased pick up locations in each school district to accommodate the safety of the students. Advanced technology has increased the number of diagnostic tools available to mechanics and also amenities for the passengers. The motor coach charter division provides eco-friendly group transportation and is renowned for providing convenient, on time, safe transportation. One of the most monumental changes has been the switch to ultra low sulfur bio diesel fuel in the entire fleet to help protect our environment. This makes motor coach travel the most fuel efficient and clean way to go!

Over the years, safety regulations have resulted in proven statistics showing motor coaches to be the safest means of transportation. Klein Transportation has been a champion of this cause and maintains one of the area's best safety ratings. The use of the internet by the public has lessened dependence upon staff to provide travel destination information. However, the community enjoys the personal assistance available at Klein's to select and purchase Broadway Show tickets, in combination with convenient direct transportation from this area to New York City on every Saturday of the month and the 4th Wednesday. For generations the Klein's have found it rewarding to provide opportunities for hard working folks to enjoy mini vacations to destinations in our beautiful country for well deserved relaxation and enjoyment. They have provided customers stress free travel to many major tourist cities for day trips as well. They look forward to transporting many more folks on fun trips for years to come.
